DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3, 6-8, 13, 33, 34, and 39-44 allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-3, 6, 13, 33, and 34 are allowed because, as indicated in the Office Action dated June 16, 2006, none of the prior art of record discloses or suggests the frequency from the oscillator being recalculated at fixed periods by the control means, in combination with the remaining claimed features.

Claims 7, 8, and 39-44 are allowed because, as indicated in the Office Action dated June 16, 2006, none of the prior art of record discloses or suggests the software within the micro-controller automatically detecting a frequency of a mains supply to which it is connected, via an AC zero detector circuit, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see Remarks, filed December 18, 2006, with respect to claims 1-3, 13, 33, and 34 have been fully considered and are persuasive. The rejections of claims 1-3, 13, 33, and 34 have been withdrawn.
